EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jay Maioli on July 8, 2005.

The application has been amended as follows:

Claim 11. (Currently amended) A projection type display device according to Claim 10 ~~2~~, further comprising a body element containing said frame, and said distribution means ~~and said a regulation means~~.

The following is an examiner's statement of reasons for allowance: Regarding claim 9, the prior art does not teach a projection type display comprising, in combination with the additionally recited elements, a distribution sheet having differently sized apertures formed therein such that a quantity of cooling air delivered to the red optical component differs from a quantity of cooling air delivered to the green optical component that differs from a quantity of cooling air delivered to the blue optical component. While Fuse teaches that it was known to deliver different quantities of air to different optical components, it does so by guide members not by differently sized apertures in a distribution sheet.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher E. Mahoney whose telephone number is (571) 272-2122. The examiner can normally be reached on 8:30AM-5PM, Monday-Thursday.
